COMMUNIQUE

NO. 1

Paint used instead of weapons

Vandals have caused an estimated \$20,000 damages to eight Mercedes Benz cars in Vancouver, apparently in memory of three German terrorists who died in prison three years ago.

Armed with cans of black paint instead of guns, one or more vandals sprayed slogans on eight new cars and a window of the Mercedes Benz of Canada Ltd. showroom at 1395 West Broadway sometime Saturday night.

Police said the slogans included "in memory of Oct. 18, '77" — "Remember Stammheim — Oct. 18 Rebel Youth Resistance Group" — "Pigs."

Stammheim is believed to be a mis-spelled reference to the maximum security Stammheim Prison in Stuttgart, West Germany, where terrorist Andreas Baader, his mistress Gudrun Enslin and follower Jan-Car Raspe committed suicide on Oct. 18, 1977.

That was preceded by the hijacking of a 737 Lufthansa airliner where hijackers demanded the release of the three, along with other imprisoned German terrorists and \$15 million as the price of releasing 48 passengers held hostage.

However, a West German commando force stormed the plane, killing three of the four hijackers.

Following rescue of the passengers and the announcement of the prison suicides, terrorists bombed a number of German car showrooms throughout Europe.

INACTION IS AS GOOD AS CONDONING THE OPPRESSION OF THE PEOPLE

Resist and with resistance burn the path to a better world!

Resistance is more than idle talk, more than random vandalism.

Experience tells us who the enemy is: the State, the Police, the Corporations, the Church and all other institutions of this sick racist/sexist/capitalist society.

Simply knowing the enemy will not free us from the de-humanizing destructive lives that these pigs force us to live.

Only action, acts of rage and acts of love, hold any hope of breaking their death grip.

Resistance is knowing the enemy and moving against it with all the force at your command.

All attacks and actions weaken the enemy. Well aimed blows against the empire will bring the Beast to its knees if enough of us get serious.

The most meaningful way to support resistance is to make political actions in defiance of this honky society and communicate these actions to the people around you.

Our friends and comrades in the REBEL YOUTH RESISTANCE GROUP have seen the necessity to attack and to express themselves to other people. We have reprinted their communique as an act of solidarity with them in the struggle.

WHAT ARE YOU GOING TO DO FOR THE REVOLUTION?

NEWS

Spirits of Baader-Meinhof

The Peak has received a communique from a group claiming responsibility for vandalizing property at Mercedes Benz of Canada Ltd. in Vancouver last weekend.

Damages at Mercedes were estimated at \$20,000. Eight new cars and a window were spray painted with the slogans: "In memory of Oct. 18, 77," "Remember Stammheim" and "Rebel Youth Resistance Group."

In a brief telephone conversation with the Peak, a member of the group said the Rebel and Youth Resistance Group formed recently to "raise people's consciousness about oppression of capitalism and the Canadian business classes."

He said the group is independent of any other organization.

The group plans more attacks on business establishments, according to the informant, but he would not say what form they would take, or what the targets might be.

The Peak also received a written statement from the group explaining their actions. The statement is printed here:

The action carried out on Saturday/Sunday, October 18/19, 1980, against Mercedes Benz of Canada Ltd. at 1395 West Broadway was done with the following objectives in mind:

(a) To commemorate the murder/deaths of three comrades on October 18, 1977, while being held in West German prisons, notable the notorious Stammheim concentration camp. The comrades were members of the Red Army Fraction, and were killed by the hired prison goons of the West German state. Though these comrades (G. Enslin, A. Baader and J.C. Raspe) are now dead, *their spirits carry on!*

(b) As members of the Rebel Youth Resistance Group we are angry at what we see happening within the capitalist Canadian state in terms of how the Canadian and third world peoples have been and are being exploited and degraded. Hence we have chosen to resist and fight back instead of standing back and doing nothing about the present situation!

(c) Thirdly, the action was designed to have Mercedes Benz

Ltd. of Canada suffer a financial loss as it is a representative of West German imperialism and we have found through our individual experiences that the

capitalist class hates to suffer any loss of profit.

To this end we say: West German imperialists out of Canada! Smash the capitalist

lism/Capitalism. If the above four mentioned commodities came from Canada, then the Peruvian peoples would become more colonised than they are at present by U.S. imperialism would it not? We say the Peruvian peoples need Revolution not colonisation as you seem to suggest! It is political naivety on your behalf to believe the scum capitalist owners of Mercedes Benz Ltd. would give \$20,000 to aid the peoples of Peru. The essence of capitalism is to make the maximum profit and to concentrate it in the hands of a few and not spread it about equally among the people and for the people.

We want an end to capitalism and capitalist scum. The urge to Destroy is also a Creative urge. That is why we have chosen the path of Armed Struggle.

We live to Struggle!

"we have ^{Peak}
no heroes" 7.11.80

The following is written in response to your letter of criticism entitled "ugly terrorism", which was addressed to us in the Rebel Youth Resistance Group (R.Y.R.G.). The letter was published in the student newspaper, the Peak on Tuesday, October 28, 1980.

You refer to the action against Mercedes Benz Ltd. of Canada as irresponsible terrorism, thus inferring that we are terrorists. Have you stopped to consider that the policies formulated by the pig owners of Mercedes Benz may and in fact do terrorize the people of Peru and other third world nations. We do not see ourselves as terrorists, but rather as Urban Guerillas. As to the term "terrorism", yes we recognize the fact that there are terrorists and terrorism does exist. We say that the policies formulated by North American politicians and by the bosses of multinational corporations create and maintain terrorism among the peoples of the third world. Those politicians and capitalist bosses are the terrorists and not us of the R.Y.R.G.

We do not make martyrs of the dead nor do we idolize them. In fact we have no heroes. The West German authorities made martyrs of Enslin, Baader, and Raspe by murdering the three of them in the fascist concentration camp called Stammheim prison on Oct. 18, 1977. You stated that the three comrades murdered innocent, unarmed human beings. By this, do you mean that Hans Martin Scheyler was one of those innocent human beings despite the fact that he was a Nazi pig? And what of the fascist judge(s) who sentenced them to prison thus bringing their deaths on, was he, are they innocent also?

You stated and we quote, "Their \$20,000 damage to Mercedes Benz was pointless, wasteful and farcical. \$20,000 could have supplied textbooks, medicine, food and clothing to save the lives of more than two thousand uneducated, malnourished people in Peru."

It is obvious to us that you do not understand the concept of Capitalism. The peoples of the third world are uneducated and starving due to U.S. Imperialism.
